

Specialist Deep Freeze Adhesives

BEARDOW **ADAMS**™

Unique Adhesives

GIVE OUR HOT MELTS THE DEEP FREEZE TREATMENT

Uniquely formulated to provide high adhesion for specialist deep freeze applications, our hot melts help businesses and consumers reduce food waste, maintain food safety, and ensure the integrity of the final product.

Whether this be for fruit and veg, dairy, meat, fish, or even delicious treats like ice cream, we have a range of adhesives to suit different packaging substrates, application temperatures, and specialist requirements.

Providing the necessary flexibility required under freezing temperatures, our adhesives provide a reliable bond throughout the life cycle of the product, from factory, transportation, and storage, and finally to the end user.

Suitable for temperatures as low as -50°C degrees, our clean-running adhesives boost productivity, reduce maintenance costs, and ultimately help the bottom line.

Switching to one of our hot melts could not be easier, with an experienced technical support team on hand to work with you throughout the approval process, from specification and small-scale trials, through to laboratory analysis, extended trials and final approval.

KEY BENEFITS

 <p>Specialist deep freeze adhesives</p>	 <p>Clean, trouble-free running</p>	 <p>For temperatures as low as -50°C</p>	 <p>Available with food contact approval</p>	 <p>For challenging substrates incl. metallised paper</p>
 <p>Slower setting adhesives for cold environments</p>	 <p>High strength adhesives</p>	 <p>Viscosities to suit different machinery</p>	 <p>Supports move to reduce food waste</p>	 <p>Helps improve food safety</p>

DEEP FREEZE ADHESIVES

Product	Deep freeze performance	Technology	Colour	Viscosity at 160°C
BAMFutura 55	★★★★★	mPO	Water white	7,000 cP
BAMFutura 56	★★★★☆	mPO	Water white	3,905 cP
BAM 2483	★★★★	mPO	Water white	2,430 cP
BAMFutura 51	★★★	mPO	Water white	1,800 cP
BAMFutura 3	★★	EVA	Water white	1,220 cP
