| Posting Title | Maintenance Engineer |
| Location | Milton Keynes, UK |
| Reporting to | Maintenance Manager |
| Hours | 40/week |

We have a fantastic opportunity for you to join us at Beardow Adams working within our Hot-melt Adhesive factory, laboratories and offices. Our products are used globally in the manufacture of many household named products that you use on a daily basis.

Every time you open your breakfast box of cereal, the adhesive sticking the box together was made by us, here in Milton Keynes. Fancy some soup for lunch? Guess what, our adhesive sticks the label on the tin!

We are constantly growing and so we are looking for someone to join our established team as another maintenance engineer to compliment the great work we do.

Role & Responsibilities

We are looking for a highly motivated engineer with excellent communication and team working skills plus a flexible approach to work. With previous experience within a similar role/environment, you will demonstrate a sound knowledge and understanding of routine and preventative maintenance.

Essentially for this role we need someone who has knowledge of:

- 3 phase & Machine Control Systems
- The ability to diagnose and fault find on a range of equipment
- Qualified to IEE Wiring Regulations 17th Edition

We would also like the successful applicant to have:

- A working knowledge of PLC's & Siemens S7
- Basic Mechanical Engineering skills

You must also be able to work an early & late shift (week on/off) and also attend emergency call outs.

In return we offer you a starting salary of £30,000.00 with the potential to exceed £40,000.00.

We also offer 28 days holiday (including Bank Holidays), free private medical healthcare, free parking, uniform, a fully equipped canteen area for you to cook and store your meals, plus free tea and coffee.

To apply please send your CV to careers@beardowadams.com
